

Rua Red Environmental Policy

Rua Red South Dublin Arts Centre recognises that it has a responsibility to the environment beyond legal and regulatory requirements.

We are committed to reducing our environmental impact and strive to continually improve our performance as an integral part of our business strategy and operating methods.

It is our priority to ensure our environmental policy is implemented, and we actively encourage all staff, centre users and stakeholders to adopt a responsible approach toward the impact of their actions on the environment.

We are working to become greener in our activities, and become part of a growing network of arts and culture organisations trying to reduce their environmental impact.

The aims of our policy are to:

- Wholly support and exceed all relevant regulatory requirement
- Increase our energy efficiency and have regular energy audits
- Reduce, and recycle the waste produced by our operations
- Reduce water consumption
- Purchase products and services which do the least damage to the environment, where possible, and encourage others to do the same.
- Measure, record and continually reduce the carbon footprint of the organisation
- Encourage the use of low environmental impact methods of transport

Travel

- Use bicycle, walking or public transport options whenever possible.
- Use of cars is only permitted if it is the most sustainable or practical option.

Printing

- Printing should be kept to a minimum. Internal minutes and documents should be circulated electronically and printed only when necessary. Contracts, invoices and other correspondence should be sent electronically where possible.
- Double-sided printing and multiple page printing should be used as much as possible to minimise paper usage.
- Photocopier paper should be recycled paper.
- All print cartridges should be recycled.

Recycling

- Paper, cardboard, glass, and aluminium cans should be recycled using the recycling bins around the building.

Purchasing

- Waste will be minimised by only ordering what we need.
- Environmental impact will be considered when choosing products and services.

Energy Usage

- Energy consumption will be recorded and monitored and steps taken to continually reduce energy consumption.
- All lights, computers and monitors and other electronic equipment should be switched off when not in use.
- Everyone should be continually mindful of energy usage and identify methods of reducing energy usage within the scope of their role.

This policy will be reviewed on an ongoing basis.
